

ZEREGA AVE
COMMUNITY PROJECT

ELECTRIFYING SCHOOL BUSES IN THE BRONX (ESBB)

*Organized by NY League of Conservation Voters, World Resources Institute,
Mobility House, CALSTART, South Bronx United, Bronx Community College*

Project Description

We are working with NYCSBUS, a nonprofit that owns around 10% of the buses in NYC, to apply for a grant that will help us deploy, support, and scale electric bus fleets. We will do this by working at an already established bus depot in Zerega and deploying a fleet of 30 green buses to reduce emissions, installing charging infrastructure that connects to the grid, and training bus drivers, technicians, and students on this technology.

Why Is It Important

In the long term, this will bring zero-emission school bus rides for children, clean up the air in Bronx communities, and accelerate workforce training in clean technology.

**IF YOU WANT TO LEARN MORE ABOUT THE PROJECT,
PLEASE REACH OUT TO US AND WE CAN SET UP A MEETING
TO GIVE A MORE IN-DEPTH PRESENTATION AND ANSWER
ANY QUESTIONS YOU MIGHT HAVE.**
